Forecast for Monday 02 Aug 2021

Weather: Dry during the early hours of the morning with long clear skies giving a bright start to the day. Cloud bubbling up during the course of the morning with a few showers possible. Showers persisting into the afternoon, and possibly becoming locally heavy with a risk of thunder. Any showers soon easing during the evening leaving the Brecon Beacons with clear spells into the overnight period.

Chance of cloud free mountain/hill tops above 600m: 50% rising to 70% from mid-morning.

Visibility: Generally good, however risk of some cloud banks near summits, early in the morning. Developing showers may result in the sudden deterioration of visibilities from mid-morning.

Meteorologist's View

A bright start on Monday but with cloud banks near some summits initially, good navigation skills will be required if heading out into the hills early in the day. Conditions improve during the morning with some strong sunshine and thus high UV levels, so sun protection is also needed. In additional there is also a risk of developing showers with thunder which will make walking conditions challenging at times.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Sat 31 Jul 2021	0.4mm	25.4mm	26mm

Forecast for Tuesday 03 Aug 2021

Weather: Generally dry and bright with sunny spells across the Brecon Beacons, risk of a few scattered showers developing during the day. Any showers should be mostly light or moderate, however there is a risk of a slightly heavier shower at times. Cloud increasing from the west from late afternoon.

Maximum wind: Westerly 10-15mph.

Chance of cloud free mountain/hill tops above 600m: 80% throughout.

Visibility: Generally good with cloud bases above the level of summits however sudden deterioration in the visibility are possible in any showers. Visibilities below the cloud will often be good with excellent air clarity.

Temperature: **Valleys:** Plus 12 Celsius, rising to plus 17 Celsius.
At 600m: Plus 7 Celsius, rising to plus 12 Celsius.
Freezing level: Above the summits.
